How we can help

- Overnight / Multi-day Flips - Have our team transition a space midday or overnight to give your clients a different experience in the same space. Have our team create a design that incorporates keeping pieces for multiple days, adding in/removing pieces to keep your designs fresh, or transition to a completely new set of pieces.
- Brands- Send us your brand, mood board, or logo, and have our team create options as we capture your brand through furniture using the right shapes, colors, and textures to reflect your vibe.

- Complete Recommendations - Choose your own pieces or let us do the work. Our team can provide complete Styled Lounge designs as well as larger area layouts with complete pairing recommendations (including bars, cocktail tables, seating, etc.) to save you time and ensure a powerful end result.
- Opposite Experiences - Trying to create different moods over a period of multiple days/ events? We can help you drive home the difference in each space - Dark & Moody, Poolside Cocktail Hour, Zen Brunch, New Orleans Flavor - give your clients a spectrum of experiences as we help you design multiple environments, whether they are separate venues or one location we help you flip.
