*Wedding Inspiration*

How we can help

- Complete Recommendations - Our team provides complete Styled Lounge designs + other pieces recommendations for the elements you need (bars, cocktail tables, etc.) to save you time and ensure a powerful end result.

- Flips - Don't hold back on your designs due to flips, because we can do it. During cocktail hour, second lines, etc we can go in and flip a whole room within minutes. This gives the guest a different experience within the same space.

- Wedding Weekend - Whether it's the welcome party, rehearsal dinner, ceremony, reception, or even the after wedding brunch, we have the perfect set ups for all the occasions. We can come in and create the same vibes to make a very cohesive look for all the events or completely change it up to give your guests a weekend full of experiences.

- Meetings - Our warehouse has the perfect set up for your clients to come view all the pieces and see how things can go together for their event. We also have a meeting space that you can meet with your clients privately after our meeting.
